

CONTENTS

MATHEMATICAL MODELING

Data processing methods

<i>A.V. Bondarev, V.N. Efanov</i> , Static mode of the mathematical model of an electric multipolar with memrezative branches in the conditions of interval uncertainty.....	3
<i>G.V. Paradezhenko</i> , Searching ground states of the heisenberg antiferromagnet on a triangular lattice using machine learning methods	14
<i>N.M. Minazetdinov</i> , One limiting quasistationary problems of electrochemical machining of metals	22
<i>T.G. Chernousova</i> , A cybernetic approach to understanding the goal. Multi-agent robotic system as a means to achieve the goal	30

CONTROL OF COMPLEX SYSTEMS

Information technology and management optimization

<i>V.I. Alekseev</i> , Robotics in space: history and prospects of development	40
<i>A.V. Bartsevich, M.S. Karev, R.A-M. Khashagulgov</i> , Methodology for determining the type of maintenance performed on elements of a complex technical system.....	53
<i>A.K. Blazhko, M.P. Buyankin</i> , Selection of orbital objects by multi-zone optoelectronic means of passive optical location	61
<i>E.M. Bronshtein, O.V. Kondrateva</i> , The method application of swarm intelligence in managing the securities portfolio formation	70
<i>A.A. Bruskov</i> , Interdependent multilevel networks survivability modeling and analysis with applications in space networks	79
<i>E.P. Grabchak, E.L. Loginov</i> , Creation of new automated monitoring systems and diagnostics: detection of latent attacks on digital information and control systems of energy facilities.....	91
<i>M.A. Grudev</i> , Application of queuing systems theory in project team management	101
<i>O.V. Zolotarev, A.Kh. Khakimova, I.M. Zatsman, Dongxiao Gu</i> , Project for building a multimodal medical information system	109
<i>K.A. Trezubov, E.Yu. Avksentieva</i> , Methods for predicting securities prices by means of a trading platform for portfolio investment	119
<i>K.I. Lvovich, A.P. Preobrazhensky</i> , Optimization of the team adaptation process staff to digital control in organizational systems.....	125
<i>I.Sh. Shafigullin, Yu.L. Plekhanov</i> , An example of an applied solution to the problem of operational management of advertising work for predicting the timeliness of the implementation of its measures when troubleshooting equipment.....	133

COMPUTER SCIENCE AND ENGINEERING

Modern trends in the development of computer and information technologies

<i>A.I. Zakharov, G.A. Bryakalov, V.A. Fedorova, Di.A. Kuchugurova</i> , Development of a technique of comparative analysis of algorithms compression of information	140
--	-----

Programming practice

S.A. Nesterovich, On the automation of the main stages of the procedure for the examination of intellectual property objects in the global computing system151

S. Nesterovich, Y. Kuptsova, About some possibilities of detecting hidden maltic code156

A.N. Shulgin, S.S. Zykova, Model of a heterogeneous computational process with global load distribution based on private sets162

G.V. Resenov, The combination of containerization and virtualization as a way to improve the information system171

Recommendations for the authors 177
