

CONTENTS

MATHEMATICAL MODELING

Telecommunications Systems

Klyuchnikov V.O. Mathematical Model and Algorithms for Optimizing the Data Transmission Network.....3

Technical Devices Modeling

Atkishkin S.F. Microwave Frequency Doubler Based on a Quadrature Couplers and Baluns.....8

Sattar Sh. Mathematical Modelling of Thermo-Mechanical Stresses Arising in Rectangular Supports of Thermoelectric Modules.....23

CONTROL OF COMPLEX SYSTEMS

Control Theory. General Issues

Klimenko I.S., Sharapova L.V. Optimization of Management Solutions and Uncertainty Ratio Information – Time.....37

Minaev V.A., Kaneva K.V. Principles of Managing Social and Economic Structures in the Context of Pandemic Restrictions.....43

Information Technologies and Optimization of Control

Odintsova M.A. Trends in Information Technology Management.....61

Vecherskaya S.E., Khudova M.V. Some Problems of Using the Sales Funnel Method.....69

Bolgova M.A., L'vovich Ya.E., Choporov O.N. Algorithm for Making Management Decisions with Inter-Object Distribution of Resource Supply Under the Conditions of Implementation of the Leadership Strategy in the Network Organizational System.....75

Tutik A.V. Increasing the Efficiency of Company Management when Using the Corporate Information System.....83

Kalinin T.V., Kurapin V.G., Potopalskyi D.F. Electronic Portfolio of the Cadet of the Military Academy: Features of Formation and Order of Use.....87

Tugolukov A.V. Dialectics of the Development of an Aircraft Carrier Ship as a Complicated Organizational and Technical System.....95

Information Security

Ivanov O.S., Lohvitsky V.A., Dudkin A.S., Titov S.S. Integrated Automatic Intelligent Processing Internet Content Displayed on a Monitor During User Session.....103

Gnidko K.O., Ereemeev M.A., Pilkevich S.V., Sabirov T.R. Analysis of the Suitability of Open Databases of Annotated Images for Deep Learning of Neural Networks in the Tasks of Information-Psychological Security.....111

Toropov B.A., Filimonov O.V. Model for Evaluating the Influence of Virtual Network Communities on the Opinions of Internet Users on Socio-Political Issues.....118

Bagretsov S.A., Lauta O.S., Mikhail I.I., Sagdeev A.K. The Method of Rational Choice of the Composition of the Redundant Channels of Communication in Order to Improve the Sustainability of Information and Telecommunication Networks, Taking into Account the Impact of the Enemy.....126

COMPUTER SCIENCE AND ENGINEERING

Data Analysis and Intelligent Systems

Bashlykova A.A., Rastyagaev D.V. Interoperability of Repositories of Versions
Instrumental Software Computing Complexes.....136

Zakharov A.I., Bryakalov G.A., Neretina K.A. Influence of Parallel Calculations
and Structure of Algorithms Solvable Tasks on Efficiency of Information Processing
in Multiprocessor Computing Systems.....143

Amer I.F., Al Khalidi A.M. Two Fast Methods for Finding the Greatest Common Divisor.....150

Current Trends of Development of Computer and Information Technologies

Novikov K.D., Raskatova M.V. Software Optimization.....159

Bondarenko S.V., Zhukova T.V., Vikhtenko E.M. Development of Object-Oriented
Component Frame Implementing the MVC Paradigm.....165

Operating Systems Interfaces

Skuratovskij A.G., Pustynnikov D.V. Research of Architecture of Windows Operating
System.....172

Recommendations for the Authors.....181

Information about Authors.....183

Contents.....191
